

Use the DECIDE decision-making model to help you choose the right option for you:

- Define the problem.
- Establish your criteria.
- Choose options.
- Identify pros and cons.
- Decide.
- Evaluate.

Define the problem. Be as specific as possible.

Establish your criteria. What features are must-haves? What is non-negotiable?

Choose options. Narrow down your options to three top choices.

Option 1:

Option 2:

Option 3:

Identify pros and cons. Jot down a few of the key features, factors and costs of your top choices.

	<i>Pros</i>	<i>Cons</i>
Option 1:		
Option 2:		
Option 3:		

Decide. Choose the option that best fits your criteria.

I choose ...

Evaluate. Make a plan to regularly evaluate your choice.

I will review my chosen option in _____ (weeks / months / years).

Check-in date: _____
