Chance for youth ages 8 -14 to WIN \$2000

What is a “Virtual Money Fair”?

Simply - it's a video of a money topic that a student has chosen and researched. She/he/they then develops an engaging video presentation and submits it to Canadian Foundation for Economic Education (CFEE). The top presentations will compete for a \$2000 first prize, \$1000 second prize and \$500 third prize in May 2022. This contest is limited to students ages 8 –14 or grades 4 – 8. A participant can only enter into one CFEE contest within a given year.

A Virtual Money Fair involves students, either learning at home or in the classroom, selecting a money topic that is of interest to them, undertaking research to explore and learn about that topic, and then preparing a creative video presentation that showcases the outcome of their research and what they learned. We will be getting submissions from across the entire country, posting them on the secure CFEE website and then there will be a National Showcase of the best with "financial celebrities" as experts and influencers.

A Money Fair should be a fun, interesting, and engaging activity for students – at the same time as they learn about money and improve their financial literacy and capability.

A Money Fair is an excellent way to engage students at home and have fun while learning.

Some ideas for a Virtual Money Fair project

Here are just a few ideas that can get the creative juices flowing for your students. Remember their submission must be in video format but that can be a video of almost anything - play, song, PowerPoint, animation - use your imagination.

Videos should be maximum 3 minutes in length and include a short summary of the topic, discussion of the key learning(s), as well as how are those learnings are going to be applied in the student's own life going forward.
